

SAT PREP CLASS

Students Will:

- Review key skills and concepts in the content area
- Learn and practice test taking strategies
- Discover techniques to manage testing experience
- Be assigned practice tests after each class
- Need to bring an SAT approved calculator and note-taking materials to each session.

This class prepares students to be successful on the new SAT with special attention to test taking strategies and content-specific skills. Targeted for students taking the June 2, 2018 SAT exam. Each session will meet for 1.5 hours immediately after school on the dates listed.

DATES

April 17, 26

May 3, 10, 17, 24, 31

Practice Test: May 21

SAT: June 2

ABOUT THE INSTRUCTOR: CARRIE PENDLETON

Ms. Pendleton holds both a Bachelor's and Master's degree in Civil & Environmental Engineering. She currently works as a professional engineer for a local consulting firm. She has over 11 years of tutoring experience, primarily working with high school students in math and science, as well as preparation for both the SAT and ACT exams.
